

grade snapshot | tenth

Tenth graders dive deeper into a challenging curriculum focused on NYC government + politics, developing strong rhetoric and composition skills, and completing a second research project, this time with the option of individual study.

Sophomores also have protected time in their day for immersive participation in enrichment (after school + summer), preparing them for leadership in years to come.

essential learning questions

as a New Yorker...

How does **government** work in my city?
In my state?
In my country?

within each....

What are the assets + challenges?
What contributions can/should I make?

for myself....

What makes me myself?
What's my story?
How do I tell that story?
